Was haben heiße Sommer mit Chloridtabletten gemeinsam?

Major Manufacturers of Chlorine in US

- ▶ There are 36 Chlorine Manufacturing businesses in the US as of 2022 with 3 largest players that are traded.
- ▶ The companies holding the largest market share in the Chlorine Manufacturing industry include Olin Corporation, Occidental Petroleum Corporation and Westlake Corporation.
- ▶ This industry has no major players with a market share of greater than 5%.

	Ticker	Traded on
Olin Corporation	OLN	NYSE
Occidental Petroleum	OXY	NYSE
Westlake Corporation	WLK	NYSE

Olin Corporation

- ▶ Olin Corporation is a manufacturer and distributor of chemical products, and ammunition. The Company operates through three segments: Chlor Alkali Products and Vinyls, Epoxy, and Winchester. The Chlor Alkali Products and Vinyls segment manufactures and sells chlorine and caustic soda, ethylene dichloride and vinyl chloride monomer, methyl chloride, methylene chloride, chloroform, carbon tetrachloride, perchloroethylene, hydrochloric acid, hydrogen, bleach products and more.
- ▶ Chlorine and Vinyl products account ~50% of the revenue as at Q1. The company does not provide standalone chlorine sales.
- ▶ Rising stock price is mixed effect of Russian ammunition ban and chlorine deficiency in US.
- ▶ In 2021, Russian ammunition imports represented ~12% of U.S. commercial rifle and handgun consumption.
- ▶ Given current military opportunities outlook for ammunition sales is positive.
- ▶ The U.S. Army's modernization of existing facilities and development of next-generation 6.8 mm rounds can grow Winchester via design, construction and operation of a state-of-the-art production facility at Lake City, delivering some benefit as early as 2024.
