Was haben heiße Sommer mit Chloridtabletten gemeinsam?

Bottomline for Chlorine Manufacturers in US

- ▶ Due to drought tendencies in the US it is expected that chlorine manufacturers stock price will rise as a result of drought and increased usage of chlorine tablets for water reservoirs to avoid swamping.
- ▶ According to Atlanta-based research firm Pkdata, there are 5.2M residential inground pools in the U.S. and 255K commercial pools. The number of above-ground pools is unknown. Stankowitz estimated that 60% to 70% use chlorine tablets.
- ▶ Chlorine Manufacturing industry is expected to rebound in 2022 as covid pandemic begins to give way to economic recovery.
- ▶ Chlorine Manufacturing industry market size is \$1B in the US

Date accessed June 1st 2022

Major Manufacturers of Chlorine in US

- ▶ There are 36 Chlorine Manufacturing businesses in the US as of 2022 with 3 largest players that are traded.
- ▶ The companies holding the largest market share in the Chlorine Manufacturing industry include Olin Corporation, Occidental Petroleum Corporation and Westlake Corporation.
- ▶ This industry has no major players with a market share of greater than 5%.

	Ticker	Traded on
Olin Corporation	OLN	NYSE
Occidental Petroleum	OXY	NYSE
Westlake Corporation	WLK	NYSE

Olin Corporation

- ▶ Olin Corporation is a manufacturer and distributor of chemical products, and ammunition. The Company operates through three segments: Chlor Alkali Products and Vinyls, Epoxy, and Winchester. The Chlor Alkali Products and Vinyls segment manufactures and sells chlorine and caustic soda, ethylene dichloride and vinyl chloride monomer, methyl chloride, methylene chloride, chloroform, carbon tetrachloride, perchloroethylene, hydrochloric acid, hydrogen, bleach products and more.
- ▶ Chlorine and Vinyl products account ~50% of the revenue as at Q1. The company does not provide standalone chlorine sales.
- ▶ Rising stock price is mixed effect of Russian ammunition ban and chlorine deficiency in US.
- ▶ In 2021, Russian ammunition imports represented ~12% of U.S. commercial rifle and handgun consumption.
- ▶ Given current military opportunities outlook for ammunition sales is positive.
- ▶ The U.S. Army's modernization of existing facilities and development of next-generation 6.8 mm rounds can grow Winchester via design, construction and operation of a state-of-the-art production facility at Lake City, delivering some benefit as early as 2024.

Occidental Petroleum

- Occidental Petroleum Corporation is an energy company. The Company primarily conducts its ongoing exploration and production activities in the United States, the Middle East and North Africa. Within the United States, it has operations in Texas, New Mexico and Colorado, as well as offshore in the Gulf of Mexico. The Company operates through three reporting segments: oil and gas, chemical and midstream and marketing.
- The company stock price has mixed effect of rising oil shortage due to Russian Oil Embargo and chlorine shortage in the US.
- Additionally, owners (like BRK) are purchasing large volumes of this stock knowing that the price will go up.
- OXY is the #25 ticker with momentum activity traded by institutions with options transaction volume 2.2x the average daily volume.
- As at Q1 Chemicals revenue comprise around 20% of total revenue. The firms does not provide standalone
